Not specifically; I assume it is still late June as previously proposed (when they proposed the 60 day extension).

Hi Walter.

I can call in that day.

Did Bruce indicate when the model would be ready for distribution?

Subject: Hudson Meeting

FYI, Bruce Adler called me yesterday and proposed a meeting prior to the June 21 Klee/Enck meeting. My schedule more-or-less dictated the June 9 pm time identified below. Is this OK for you, or do any of you have insurmountable conflicts?

P.S. -- Adler states that we will be given full access to every aspect of the new Conally model -- code, algorithms, computer programs, etc.

PPS -- I took the opportunity today to brief Barry Breen and Elliott Gilberg on GE's "Phase 1B" proposal. Elliott Laws has already called Barry seeking a meeting. (Barry may reply that GE should work the proposal through the Region)
